

Dear student,

I am very happy to welcome you to our Business Management in Agriculture & Food study programme and I look forward to meeting you in person!

Several introduction activities have been planned for you in the last week of August, to make you feel at home at our university and the town of Venlo and to enable you to get acquainted with your fellow students and members of staff.

**Introduction Days** (Tuesday 27th and Thursday 29th of August)

On *Tuesday the 27th of August* we have organised an Introduction Day especially for students of Business Management in Agriculture & Food. If you're an international student we will help you with practical matters on this day, such as council registration, vaccinations, or any other information you may need etc.

For *Dutch students* it is important to know that it is compulsory for you to join your international fellow students and take part in the afternoon programme, which includes the workshop "Cultural Differences" and for which I will also invite the Dutch students of Business Administration and agri-foodbusiness, so you can get to know each other from day one!

On *Thursday the 29th of August* the Introduction Day for all HAS UAS students takes place, in conjunction with students from Fontys UAS and University Maastricht. It will be a day of teambuilding activities with plenty of opportunity to get to know each other and the town of Venlo a little better.

**Keep an eye on your in-box and the HAS website as you'll receive more detailed information about these introduction days nearer the time!**

Please note that HAS University of Applied Sciences will be closed for the Summer holiday from Friday the 19<sup>th</sup> of July until Monday the 5<sup>th</sup> of August.

Best regards,

Astrid Jillings
